"Who Know's"

Summer Bible Study at Café

Why I Trust My Bible

We can no longer assume that people trust their Bible. The popular media has launched such an attack on the believability of Scripture that our people have serious questions about the Bible. Are you ready to answer them? Did Jesus actually live? Did the biblical writers get it right, or did they slant/create the message? The gospels were written so long after Jesus lived; how can you trust them? How can you believe a Bible that is full of internal contradictions with itself and external contradictions with science? Doesn't archaeology disprove the Bible? Why should we believe the books that are in the Bible; many good ones were left out, like the Gospel of Thomas. Why trust the Bible when there are so many and contradictory translations? These questions and more are discussed and answered in this class.

Psalm 119:9 NLT

How can a young person stay pure? By obeying your word.
